

Research Ethics Training

Before submitting your IRB proposal, you must first complete a research ethics training course. The certificate of completion must be included in your IRB proposal.

AIC has adopted CITI as its preferred training platform. The training is free of charge and is available to all AIC affiliates.

Each individual will identify with one of the stated learner groups on the website. There are required and elective modules for each group. Please be sure to consider special populations in your research when selecting elective modules.

If you have questions about the need to complete a particular elective please email the IRB Chair, Anne Stuart at IRB.Chair@aic.edu with a brief description of your research project.

Please follow the link below to create an account and begin the training:
